MOONLIGHT.

**NO INDIGESTION
OR SICK STOMACH**

**GAS, HEARTBURN, DYSPEPSIA
AND ALL MISERY IN STOMACH
VANISH.**

Take your sour, out-of-order stom-
ach—or maybe you call it indiges-
tion, dyspepsia, gastritis or catarrh
of stomach. It doesn't matter—take
your stomach trouble right with you
to your pharmacist and ask him to
open a 50-cent case of Pape's Diaphepsin
and let you eat one 22-grain Tri-
angle and see if within five minutes
there is left any trace of your former
misery.

The correct name for your trouble is
Food Fermentation—food souring;
the digestive organs become weak, there
is lack of gastric juice; your food is
only half digested, and you become af-
fected with loss of appetite, pressure
and fullness after eating, vomiting,
nausea, heartburn, griping in bowels,
tenderness in the pit of stomach, bad
taste in mouth, constipation, pain in
limbs, sleeplessness, belching of gas,
biliousness, sick headache, nervous-
ness, dizziness or many other similar
symptoms.

If your appetite is flakey and nothing
tempts you, or you belch gas, or if
you feel bloated after eating, or your
food lies like a lump of lead on your
stomach, you can make up your mind
that at the bottom of all this there is
but one cause—fermentation of undi-
gested food.

Prove to yourself in five minutes
that your stomach is as good as any;
that there is nothing really wrong;
stop this fermentation and begin eat-
ing what you want without fear of dis-
comfort or misery.

Almost instant relief is waiting for
you. It is merely a matter of how
soon you take a little Diaphepsin.

STARTLING AND STRANGE THINGS

**CULLED FROM EXCHANGES OVER
THE UNITED STATES AND BOIL-
ED DOWN FOR THE WEST VIR-
GINIA READERS.**

WORE BOOTS 59 YEARS.

Wearing the same pair of boots that
he had worn for 59 years, George N.
Arnold, a Wisconsin farmer, recently
revisited his old home at Moravia, N.
Y. Mr. Arnold says that he bought
the boots to attend the wedding of his
friend, George Fox, in 1852. One year
later he wore the same pedal coverings
to his own wedding, and shortly after-
ward he and his bride went to a farm
near Delavan Lake, Wis., where he has
lived ever since. A short time ago
Mrs. Arnold died and he sold a part
of his farm. In the summer he yearned
for a sight of the old Empire state
farm and sought consolation in the
society of his old time friends, but he
is now back in Wisconsin as chieftain
of a young man, although he has got-
ten beyond the mark of the four score.
Mr. Arnold does not say that he has
worn the boots all of the time; they
were built for dress, with fine calf up-
pers and tops, and he put them on on
dress occasions only. But he kept them
well greased and otherwise looked after
their preservation. He says they have
gone out and come back in style some
six different times since he has owned
them, but they are good boots yet.

Poker by Machinery.

Application for a peculiar patent re-
cently has been recorded. It is no less
a device than a poker playing machine.
It deals the cards, discards for you
and draws to your hand. It throws
the cards back and shuffles for a new
deal by the mere pressure of an elec-
tric button. Beyond the fact that the
machine is a drum-like cylinder under
the head of which the cards are ar-
ranged little is known of the warfare.

Trainmen Hunt Rabbits.

The railroad men say that in the
Central branch country of Kansas the
rabbits are unusually numerous this
winter and that jackrabbits are more
numerous than for years.

The trainmen get a chance to hunt
occasionally on account of the poor
condition of the engines. Whenever
an engine goes wrong the trainmen
enter the fields and hunt rabbits. When
the engineer gets through with the
work of repairing the engine he pulls
the whistle cord, and then the train-
men come back to the train and re-
sume their work on the road. At Par-
nell last week one crew had time to
have a rabbit supper.

Where Houses are Cheap.

The Rev. J. F. Dickie, pastor of the
American church in Berlin, when in
Augustburg, Germany, a few weeks ago,
found a little city in the heart of the
city that was shut in all by itself with
two gates and is called the "Fuggerei."
It is so-called because the 100 houses
within it were built with money left by
Fuggerei, the wealthy sixteenth century
banker.

When he died he directed that these
houses should be built and then given
to poor aged families for four marks
and 12 pennings rental a year, that is
exactly one American dollar. They
have four rooms and kitchen, with a
little front garden and a little garden
behind.

Four-Legged Chicken.

A Cincinnati man has a four-legged
chicken that hops around his house
and is a great pet. It was raised in
Kentucky and sent to this man when
but a few weeks old. He made a pet
of it; and now it thinks it owns every-
thing in sight, and seems to be proud
of the attention it gets. It has four
perfect legs, thighs and feet. It uses
two of the legs, and sometimes
scratches up the dirt with one of the
extra legs. The real use to which it
puts the extra leg is in chasing the
dog out of the house when there is any-
thing to eat around. It can run fast
on two legs and light the dog with one
of the extra legs. It is eight months
old and seems well satisfied with its
centipede-like existence.

Kills a Black Fox.

George L. Worthingly, of Uorridgwick,
shot a black fox recently which is es-
timated to be worth from \$250 to \$500.
Mr. Worthingly thought he was on the
trail of a red fox.

He had set his Kentucky fox hound
on a scent and in a few minutes after
the dog had made a circuit of several
miles the fox ran up close to where Mr.
Worthingly was on the watch. It took
but one shot to kill the animal. This
is the sixth black fox that has been
killed or captured in Norridgwick this
season. Three of them have been cap-
tured and are still alive.

Geese With Four Wings.

There were a number of unusual
things to be seen at the annual show
of the American Poultry Breeders' and
Fanciers' Association of Columbus, O.
One of these was an exhibit of four-
winged geese. He had an ordinary
goose that laid an ordinary egg, and
another, and so on down the line. The
eggs were saved. When the time ar-
rived for the geese to set the eggs
were placed under her and she re-
mained faithfully upon the job. Imag-
ine the surprise of King when every
egg hatched a four-winged gosling.
Since that time many eggs of the four-
winged geese have been hatched and
all have produced the four-winged va-
riety.

The second pair of wings grows out
of the ordinary wings. They do not
seem to bother the geese in the least,
although they are turned in the oppo-
site direction from the ordinary wings
and are about 12 inches in length.
Poultry exhibitors at the show say
they never saw four-winged geese be-
fore.

Girls Rushed Home in Tights.
Fire in the establishment of a pic-
ture company at Coney Island, N. Y.,
caused a panic among 50 girls who
were posing for moving picture films.
Dressed in Roman and Grecian cos-
tumes, evening attire, wedding dresses
and even in tights, the girls rushed
through the streets and then to their
homes. Their street garments had
been burned.

Wildcat Beat Off Five Dogs.

While fox hunting in the mountains
near Altoona, Pa., five dogs belonging
to Silas Bush, L. Hazard and Levi
Schnoppes, came upon a wildcat and
were beaten off by the enraged animal.
Later the triumphant creature was killed
by a blast of dynamite set off in the
cave where it was hiding.

Bribe Probe in the "Holy City."

The grand jury of Vermillion county,
has begun an investigation of Hoopes-
town, Ill., generally known as the
"Holy City." The mayor receives a
salary of 50 cents a year but it is said
nearly as much money is used in the
buying of votes in that time at each
election as in other towns.

The Largest Trunk.

Expressmen who are accustomed to
slamming trunks around like paste-
board boxes may not have to be cau-
tioned to handle this baby elephant of
a trunk with care, for they will do well
if they budge one corner of it. It was
built in Fargo, N. D., and is 18 feet
long, 10 1/2 feet high, and 10 feet wide.
To construct this monster nearly 2,000
feet of lumber was used as well as 500
pounds, 887 yards of canvas, 90 yards
of lining, 54 pounds of nails, half a ton
of iron and ten gallons of paint and
paste. While it was primarily con-
structed as an advertisement, yet it
will be utilized as a camp resort and
club house.

BAXTER.

As our little village has had no write
up in your valuable paper for some
time past, we desire to shake hands
bury the hatchet and become a coun-
try cousin correspondent once again.

We desire to first mention the New
Central Coal Co.'s plant at this place,
as we boast of having one of the best
equipped and most successfully op-
erated coal works in the State of West
Virginia. Skilled labor is employed,
both inside and out of this mine which
insures success and goes to prove that
our efficient superintendent, Mr. Geo.
S. Phillips, is well qualified for the
position which he so ably fills. This
mine is now running full time and has
lost but one day during the new year.

The street car line through this sec-
tion goes merrily on; the grading be-
tween here and Fairmont is about
completed and the greater part of the
steel has been laid while the trolley
poles are now being raised.

Mr. Jno. S. Jackson, manager of the
Pawpaw Co.'s supply store at this
place, has recently returned from Flor-
ida where he went the first of the
year, accompanied by his wife and lit-
tle daughter, Elizabeth. Mrs. Jack-
son and daughter will not return until
about the first of April.

Mr. Ed. Greene and Wilfred Parker,
after drawing their pay on Saturday
last, Vamoose and their whereabouts
are eagerly sought by their parents.
It is understood that the latter Mr.
Parker drew his father's pay and after
adding it to what he already had made
him considerably more and as no
cause can be assigned for their strange
action it is to be hoped that they will
return shortly and be able to give a
good account of themselves.

The Woodman of the World have re-
cently organized a camp at this place
and the order starts out under favora-
ble conditions, as some of our best cit-
izens have become members.

Mr. and Mrs. Calvin Matheny have
recently added a new daughter to
their household.

Mr. Larnie C. Morris, our new road
supervisor, is making preparation to
work our roads when the weather
opens up. He has made some needy
repairs already and judging from the
way he starts off he will no doubt
prove a good "super" and add greatly
to the condition of our roads.

Mr. and Mrs. Karl Hill were shop-
ping in Fairmont on Monday of this
week.

Mr. Leander Moore, of Mooreville,
has been erecting some new tele-
phones in our vicinity the past week.

Mr. W. R. Clayton was in Fairmont
last week on business.

Mrs. Sarah Ann Green, who has
been indisposed the past few days, is
better at this writing.

Oliver, the little daughter of Mr. and
Mrs. Willie Wade, has also been sick
but is reported better.

BIG SOCIETY FUNCTION.

One of the most elaborate social
functions ever given in this city is
scheduled for some time next month
when all the prominent people of the
city will take part. The plans for the
function are being formulated and
everything will be carried out on an
elaborate scale.

DEAFNESS CANNOT BE CURED.

By local applications, as they can-
not reach the diseased portion of the
ear. There is only one way to cure
deafness, and that is by constitutional
remedies. Deafness is caused by an
inflamed condition of the mucous lin-
ing of the Eustachian Tube. When this
tube is inflamed you have a rumbling
sound or imperfect hearing, and when
it is entirely closed, deafness is the re-
sult, and unless the inflammation can
be taken out and this tube restored to
its normal condition, hearing will be
destroyed forever; nine cases out of
ten are caused by catarrh, which is
nothing but an inflamed condition of
the mucous surfaces.

We will give One Hundred Dollars
for any case of deafness (caused by
catarrh) that cannot be cured by
Hall's Catarrh Cure. Send for cir-
culars, free.
